Activity Days

Our pupils are also very interested in learning out of lessons. That's why we have lots of technical, sport and science days.

Pupils from every class spend a few days a year at camp. There they learn about the beauties of Slovenia, about animals, plants, habits and tourism in Slovene landscapes. They learn about the things that are not predicted in a curriculum.

Camps

Raglje

We have lots of activities going on in our school. The most popular and successful is a group of young actors called Raglje.

Traffic education

Traffic education
is very
important at
our school.
This is very
well seen out
of the results
from the
national
competitions.

Fun

We like to take advantage of special occasions for our own fun. That's why we have carnivals, exhibitions, dance evenings and lectures.

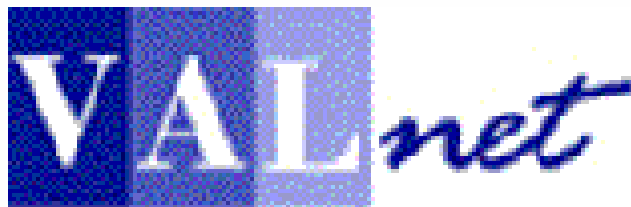

Projects

We cooperate
in a lot of
Slovene and
international
projects.
